

Notice to Physicians - TEACHING STIPEND CODES

TESP1 AND TESP2 – DAILY STIPENDS

As part of the 2023 Physician Agreement, the Medical Education Working Group (MEWG) was struck to provide recommendations on remuneration for physicians providing medical education in Nova Scotia. The MEWG was tasked with reviewing the weekly and daily preceptor stipends currently in effect.

Changes are coming into effect as of January 1, 2026, however, new fee codes will not be available to submit until the January 16, 2026 system update. As a result, claims for preceptor work completed between **January 1 - January 15, 2026 inclusive, should be held until January 16, 2026.**

A Physician's Bulletin will be published in January with further detail.

Please see joint communication from DHW and DNS: [MEWG Message](#)
