Notice to Physicians

ADCP1 – ADVANCE CARE PLANNING DISCUSSION

Please be advised that Health Service Code (HSC) ADCP1 was inadvertently terminated effective May 31, 2026. This interim fee code remains valid and will be reinstated for billing with the upcoming July system update.

In the meantime, please hold any claims for HSC ADCP1 until the July update is completed. A notification will be posted in the bulletin once billing can resume. Any ADCP1 claims that were rejected on or after May 31, 2026 due to an invalid HSC may be resubmitted following the system update.

We sincerely apologize for any inconvenience this may have caused and appreciate your understanding.
